Skills

AWS Cloud Management	C++
Python	Windows Server
Javascript	Networking
Linux Bash	Ubiquiti
HTML	Google Workspace
CSS	Office 365

Experience

Flogistix / DevOps Engineer

2016 - 2021, Oklahoma City

Rebuilt and expanded existing AWS cloud infrastructure by adding monitoring with automated responses, a CI/CD system for our developers, billing reports, tightened security, and an automated backup system of critical services while decreasing expenditures. Managed multiple AWS environments that were linked together including our office locations situated across the United States. Involved from the bottom up in maintaining and upgrading office locations including network, security devices, and other hardware.

OU Health Sciences Center / Laboratory Technician

2015, Oklahoma City

Maintained laboratory equipment and inventory. Negotiated product pricing with suppliers resulting in 15-70% reduction. Optimized efficiency within the laboratory by programming PCR machines and streamlining pre-existing PCR procedures. Assisted researchers with their projects. Quantified and presented findings.

Certifications

- AWS SysOps Administrator
- AWS Solutions Architect
